in Computer Science

Queens College City  
University of New York

2017 - 2021

### 👤 SKILLS

- Programming/Scripting  
Languages: (Proficient)  
Java, C++, HTML, CSS, PHP  
(Familiar) C#, SQL, MATLAB,  
Kubernetes, Javascript,  
Swift, Python, React Js
- Frameworks and tools:  
NodeJS, jQuery, ITK
- Proficiency in Microsoft  
Office Suite
- Data Structures and  
Algorithms
- Object-Oriented  
Programming (OOP)
- Eagerness to Learn New  
Technologies
- Communication
- Problem Solving
- Teamwork and  
collaboration
- Critical Thinking
- Adaptability and flexibility
- Able to Multitask
- Built my own PC.

### ⚙️ WORK EXPERIENCES

#### Gifted Math & Reading Learning Center

*Tutor June 2020 - October 2023*

- Multi task tutoring and analyzing homework for six students simultaneously.
- Evaluate and revise lesson plans for the allotted time to help strengthen students core concepts.
- Enhance student learning by identifying individual student needs and learning styles to effectively communicate core learning concepts to various students.
- Utilized listening and questioning strategies to diagnose student needs and monitor progress.
- Worked closely with students to help develop math and essay writing skills.

#### Advanced Eye Care

*Front Desk/Technician October 2023 - Current*

- Provided exceptional customer service by greeting and assisting visitors in a friendly and professional manner.
- Managed a high volume of inquiries via phone, email, and in-person, resolving issues promptly and efficiently.
- Handled administrative tasks such as managing schedules, coordinating appointments, and maintaining organized records.
- Implemented streamlined processes for check-in/check-out procedures, reducing wait times and improving overall efficiency.
- Assisted optometrists during eye exams, including gathering patient medical history, performing diagnostic tests, and explaining procedures to patients, resulting in smooth and efficient clinical operations.
- Operated advanced ophthalmic equipment such as autorefractors, keratometers, and optical coherence tomography (OCT) machines, facilitating precise and reliable diagnostic testing.

### 📁 PROJECTS

#### **GitHub Explorer**

The GitHub Explorer project is a web application that allows users to navigate repositories and commits on GitHub. It offers a user-friendly interface to search for organizations or users, view repositories with key details, and explore commits with relevant information.
